The Client

With the vision of "Building profitable and socially responsible financial institution focused on Market and Business with Growth potential, thereby assisting BRAC and stakeholders to build a just enlightened, healthy democratic and poverty free Bangladesh", BRAC Bank Limited has started its journey in the

Banking Sector of Bangladesh. BRAC Bank has received the commercial banking license from Bangladesh Bank in 2001. Since then it has established its name and branding with its quality of service and products. In a very short time BRAC Bank became one of the successful and fastest growing private bank in Bangladesh. BRAC Bank is owned partially by BRAC, the largest non-government organization in the world, International Finance Corporation (IFC), the private sector arm of The World Bank Group, and Shore Cap International. BRAC Bank operating its business in whole Bangladesh. BRAC Bank is expanding its branch network rapidly throughout the country. Currently, BRAC Bank has 100 Branches, 60 SME Service Centers, 3 SME/Krishi Branches, more than 300 ATMs and 424 SME Unit offices across the country.

The Challenges to Enhance its Clients Service Operations

The Queue-pro system possessing multiple 'One-Stop Teller Management' process to provide & ensure hassle-free services to the clients, where still in maximum client in every branches the regular scenario shows the crowded environment with long queue of clients, standing and awaiting to get their required services, which usually consumes non-refundable 'Valued' time as well as creating an annoying stance among the clients to avail their desired service(s). Concerning such stipulations the Management of BRAC Bank was in search of a 'True Cutting-Edge Technological Solution to mitigate the hazards of their existing manual process of 'Queue Management'—while empowering their entire 'Client Service Operational Approaches' (Teller Counter Points) proving to be more effective, efficient & systematic, where the vital objective was to gain a win-win situation (between the BRAC Bank & the valued clients) in bringing client satisfaction & ultimate loyalty as well as ensuring productivity & efficiency among its client services official.

The Solution

Following to such Challenge & BRAC Bank's requirements, Business Automation successfully developed & deployed an effective & systematic solution named 'Queue-Pro' at 1 (one) branch for a pilot project. This solution is not only a 'Unique System' of BRAC Bank - but also a signifies a true 'Milestone' of our country's ICT Sectors development arena to provide an absolute 'New & Innovative Solution' regarding the entire 'Queue Management Operational Procedures' for the 'Client Services' providing stipulations—discarding all hazards of wasting 'Valuable' Time, enabling 'Transparency' among all, sole 'Systematic – No Scopes for any Misconducts', wiping-out the total scenario of 'Crowded Environment – Where Clients will not require to stand in any sorts of Traditional Long Queues' & ultimately 'Unlocking all the Doors for the Management (Especially to measure & assess their 'Client Services' providing officials efficiency as well as productivity).

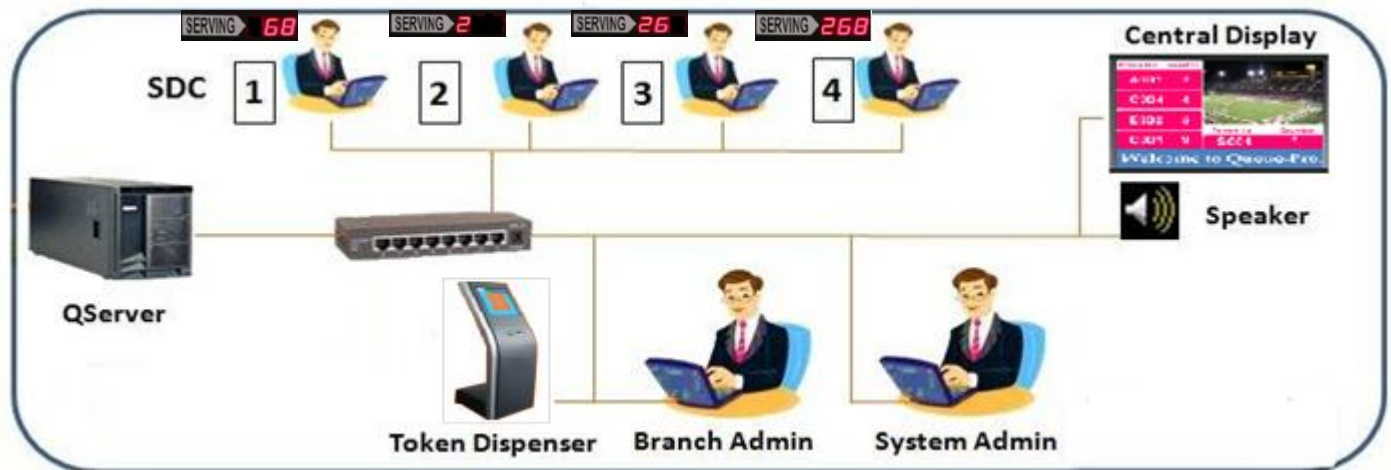

How does it Works?

The process starts with a visiting client of BRAC Bank to visit any branch for required services, where he/she will face the 'Kiosk' (Touch Screen Monitor) with indicated 'Service Category' options wide opened to make (appropriate) choice(s) of his/her 'Desired Service'—Right after his/her desired 'Service Category' selection, the system will automatically generate a 'Printed Token' indicating Service Type along with the 'Client Seba Name'. On the other part, the 'Client Service Staffs' of BRAC Bank constantly gets lists & description of awaiting 'Clients' with 'Service Category' at their workstations rendered by the System. As soon as a valued 'Client' is being served, concurrently the system will display & announce with voice prompt the 'Token Number' along with 'Counter Number' of the next client supposed to be served. BRAC Bank clients will be able to monitor the entire 'Queue Status'. And Management will be able to get the data & summary information about whole services, as & when required.
